Ayer's Sarsaparilla

"For five years, I suffered untold misery

from muscular rheumatism. I tried every

known remedy, consulted the best physi-

cians, visited Hot Springs, Ark., three times

spending \$1000 there, besides doctors' bills;

but could obtain only temporary relief. My

flesh was wasted away so that I weighed

only ninety-three pounds: my left arm and leg were drawn out of shape, the muscles

being twisted up in knots. I was unable to

dress myself, except with assistance, and

could only hobble about by using a cane.

had no appetite, and was assured, by the

doctors, that I could not live. The pains, at

times, were so awful, that I could procure

relicf only by means of hypodermic injec-

tions of morphine. I had my limbs bandaged

n clay, in sulphur, in poultices; but these

gave only temporary relief. After trying

everything, and suffering the most awful

tortures. I began to take Aver's Sarsaparille.

Inside of two months, I was able to walk

without a cane. In three months, my limbs

began to strengthen, and in the course of a

year, I was cured. My weight has increased

BICYCLES

COLUMBIA PRIZE

number of different Columbia Bicycle

advertisements clipped from newspapers

or magazines issued since Jan. 1, 1896.

Many advertisements differ only in a word or two; others in the style of type; distinct variations only, however, will be counted. Each advertisement must have plainly attached to it the name and date of the newspaper or magazine from which it is clipped. Separate entries cannot be combined. Entries must be received by us at Hartford on or before Tuesday, June 30, 1896. In case of a tie, the award will be made according to priority of receipt and entry. Address

THE SPORTING WORLD. UNTOLD MISERY

It looks an easy thing to make a golf ball. A piece of gutta percha molded and painted white, and there you are! Those in the trade alone can tell the difficulty and practice required for turnnig out a really first class ball. Good golfers can be depended upon to know what is a good article, and for this will pay a fair price.

The ordinary process of making new et such was the case of a diffident golf balls, briefly, consists in heating bridal couple that staid for a week at one and a half inch pieces of one inch diameter gutta percha rod in hot water, une up from the south, and the period and while in a soft state, molded in an iron cup with two equal halves, placed in a hand screw press. Dropped in a basin of cold water, the rim left by the joining of the cup is then pared off.

Most of the well known makes are now made by machinery. Both molding and marking are done at one time in a very ingenious mold worked by a hydraulic press. Various substances have been tried, singly or in combination, to eplace gutta percha in ball making, but all to no purpose. - Exchange.

Displeased With the "Phillies." Base ball teams are not always inundated with bouquets, even in the "home own," as the following quotation from a Philadelphia newspaper will show:

'We are not among those who think the town inclines to go into mourning because the Phillies do not win, but at the same time it is worse than folly not o admit the great interest in the game and in the fate of the favorite team. Without this interest the game would not pay expenses, and therefore it must presumptuous. We say it must be encouraged, but for the sake of the invested capital and for the indirect effect of providing a clean entertainment for the people. Therefore when the Phillies lose ight straight and a howl goes up there need be no wonder. If there is what seems to be an impudent demand for the reason why, no one need be surpris-When the baseball public comes to look with indifference on the work of the Phillies-minds its own business, as it were-those who have money invested might as well take it cut and put it in

Courtney and the Cornell Crew. The Cornell crew is said to be progressing finely in its practice work for Don't delay to buy one, and remember the big intercollegiate boat race on the also, that we carry everything in the 26th, and more especially since Coach hardware line at the lowest prices. Courtney was restored to full authority. Under the old system he had absolute control, but lately his authority was only over the men while in the boat, and the result of less experienced men having charge of them at the training table had proved almost fatal. A week

or so ago it was decided to give Courtney his authority again. The men are pleased with the change and will now work with more confidence and will, but care and judgment will have to be used to bring the men around to racing form by the time of the race.

Good Roads Needed. To bring about a speedy and material change in the present condition of the public highways is the chief and most worthy object of the League of Amerities have been pleased in times past to assume that they are requested to bear the expense of building good roads for the benefit of a few dudes who wished to make periodical trips through the country on their bicycles. This is a serious mistake. The farmer would be the first and greatest beneficiary of good roads, the business community and railroads next, the wheelmen and pleasure seekers last and least, -Chicago
